PROFESSIONAL SUMMARY

Product Designer with 3 years of experience designing enterprise applications across finance, healthcare, retail, transportation, e-commerce and others domains. Backed by 5 years in operations engineering, I bring a strong understanding of complex workflows and user challenges. I focus on creating clear, practical experiences that help users complete tasks efficiently while supporting business goals.

CORE SKILLS

Design Tools: Figma, Miro, Framer

UX & Product Design: UX Research, Product Thinking, User Flows, Information Architecture, Interaction Design, Wireframing, Prototyping, Journey Mapping, Accessibility, Design Systems

Technical Knowledge: C, C++, HTML Fundamentals

Languages: English, Bengali, Hindi

WORK EXPERIENCE

— Relevant Experience

User Experience Designer · Innovecture

Jun 2026 – Present

- Leading UI/UX design for client Nexio's merchant portal, designing end-to-end flows for merchant onboarding, transaction tracking, and payout management to simplify day-to-day merchant operations.
- Documented design conventions and maintained a scalable design system for Nexio, ensuring visual and interaction consistency across the merchant portal.
- Conducted a comprehensive UX audit for Simpayx, evaluating existing flows against usability heuristics and accessibility standards to surface friction points and prioritize high-impact design improvements.
- Partnered closely with product and engineering teams across client engagements to validate design decisions and ensure consistent, scalable UI patterns.

UI/UX Designer · Accenture

Apr 2023 – Jun 2026

- Designed and shipped responsive web experiences across different industries for both web and mobile, balancing user needs and business goals.
- Designed agentic, Gen AI-powered solution prototypes for 20+ clients, translating complex AI workflows into clear, intuitive interfaces.
- Simplified complex finance workflows by redesigning enterprise applications for RTR, OTC, FP&A, Cash Collections, and Reconciliation processes, improving usability and task efficiency.
- Leveraged Figma Make (AI) to accelerate delivery, contributing to new client acquisitions and multi-million-dollar contract renewals.
- Improved analytics and reporting interfaces, reducing dependency on support teams and improving data clarity for end users.
- Maintained a unified design system and component library across Agile sprints, ensuring brand consistency and cutting production time by ~40%.
- Created a reusable Google Design Sprint-inspired ideation template, standardizing brainstorming and concept validation across projects.

— Other Work Experience

Security Analyst · Accenture

Feb 2020 – Mar 2023

- Ensured secure and seamless access management by administering user identities, provisioning accounts, and supporting enterprise IAM operations across global systems.

Software Asset Management · Nexwave

Apr 2018 – Jan 2020

- Optimized software asset governance by managing licenses, compliance, and lifecycle operations, ensuring cost-effective and seamless access to enterprise tools.

EDUCATION & CERTIFICATIONS

- **B. Tech – Electronics & Communication Engineering** — Supreme Knowledge Foundation Group of Institutions, 2013–2017
- **Advanced Certification in UI/UX Design** — IIIT-B, 2024
- **Design Thinking Define & Ideate** — Accenture, Feb 2026
